

Mr. Allison's News

Math: The kids are knee deep in multiplication. They will get better every day with constant review of the multiplication facts. They have learned that with equal groups they can solve any multiplication problem in front of them. Continue to review addition and subtraction facts because they are the foundation.

Reading: We will continue to focus on fluency, comprehension, and vocabulary. The biggest thing you can do at home is to have your child read out loud nightly. Reading out loud helps them develop fluency skills that we work on in class. Also, when asking them about a story have them give evidence as to why they answered the way they did..

Field Trip: November 12th we will be taking a field trip to Greenbush. They will get to explore Shero Balls. This will be a good day to work on problem solving skills.

Science: Next week we will be beginning a new chapter on magnets and electricity. This is a fun chapter where they get to explore magnets and static electricity.

Specials: 1st Semester

M/W/F - Music

T/Th. - P.E.

Wed. - Library - bring books back

3rd Grade Notes:

Make sure you are looking at your child's planner each night. Reading and math should have something written in them each night. This will let you know what objective we worked on in class. This is also a great place to write a note me.
