

## Kindergarten New

I would like to say thank you to Jennie Hitt for organizing the Halloween party and to all parents who brought items. We had a great afternoon!

Our trip to Greenbush was all about plants and animals. We learned about the basic needs of living things and the food chain. We worked with hissing coach roaches, millipedes, a snake, and a Chinese water dragon. We went through their rainforest to see all different kinds of plants and worked in the greenhouse on planting seeds. It was a wonderful learning experience!

Today was our second caught doing good celebration. We are working on good behavior and making good choices.

Don't forget we need every student to bring a new item for our PTO class basket. Anything for comfort or relaxation will work. All items, tickets, and money must be at school by Friday, November 9<sup>th</sup>. \*Make plans to be at our chili supper on November 10<sup>th</sup> starting at 5:30 to support our school. All the money goes back to help students and staff.

I am sending home a baggie for collecting Box Tops for Education. Our PTO uses the labels to earn money for the school. The bags have a magnetic strip to stay on the frig. When you see a product with a label, just cut it off and put in the bag. Once you get some collected send them to school. The PTO person will pick up from the classroom about every nine weeks.

My class has been busy learning about numbers 0-10. This would be knowing the name, order, writing, and comparing of each one. Next Tuesday, we will start chapter 5-Addition.

This group is doing awesome in learning the pre-primer sight words. I think we are ready to start reading sight word books. In class, we will talk about what directions to follow on our books and how they will go home in our folders for extra reading practice.

**Have a super weekend!!!**
