

November

Science – We have finished chapter 3 – States of Matter and will be conducting the lab the first part of next week to determine what the boiling point and freezing point are for Edna, KS.

Math – Eighth graders are working on Geometry right now. They will have a test next week. We will be doing a study guide/chapter review. Please encourage them to study. We have had several discussions recently on the importance of keeping up with their work and the expectations that will be required of them at the high school. After finishing our study of Geometry, we will be moving onto graphing linear equations.

Social Studies – We are almost to finish chapter 4 over the forming of the United States government. We will spend a lot of time on the discussions and compromises of the 2nd Constitutional Convention.

Language Arts – We just finished reading some spooky Halloween stories and plays. We will now begin their 2nd novel, A Year Down Yonder.

News and Information

Orientation – Our first high school orientation day will be Tuesday, November 6th. We will leave Edna at 7:40 am, so please have your child eat breakfast at home that day. We will eat lunch at LCHS, and will return back to Edna around 2:30 pm.

We will be traveling to the High school on the afternoon of Wednesday, November 7th to watch the theatrical production of *Newsies*.

Chili Supper – Our annual Chili Supper will be Saturday, November 10th. Our basket theme for 5th & 8th grade is “Around the Farm”. Any items that you can donate towards our basket would be greatly appreciated. As of right now, we have very few donations.

CPR – The 8th grade class will have CPR training at Edna on Tuesday, November 13th.

Novels – Our 4th novel is due Friday, November 16th. Please encourage your child not to procrastinate on finding and reading a book.
