Addition & Subtraction Relationships!

How can relating addition and subtraction help you to learn and understand facts within 20?

- How can you use a related fact to find an unknown number?
- How do you choose when to add and when to subtract to solve a problem?
- How can you add and subtract in different ways to make the same number?
- How can you decide if a number sentence is true or false?

HOW YOU CAN HELP AT HOME

- READ with your child every evening!
- Practice sight words in our Sight Word Folder!
- Practice addition & subtraction facts (flashcards, ipads, etc)! The more fluent they are with their facts, the easier math will be from here on out!
- PLAY TOGETHER! 😊
