

Mrs. Heflin's 5th Grade News

We are learning:

Language Arts: For the month of February, we will be focusing on the author's purpose. We are using the acronym PIE. Is it to **P**ersueade, **I**nform, or **E**ntertain? Through our stories this month we are also working hard on summarizing, comparing characters, and identifying theme.

Math: February will be all about geometry. We will be working a lot with finding volume and area through addition and multiplication. Please continue to practice fractions and math facts at home.

Science: We are spending time every week in the STEAM lab while working through earth science. We are focusing on the water cycle and how it affects our everyday life.

Social Studies: Geography is our main focus this month. We will also be focusing on Black History Month, as well as early Americans.

Important Reminders

2/4-- No School
2/11-2/12-- Parent Teacher Conferences
2/13-- Late Start
2/14-- Valentine's Day Party
2/18-- No School

NEWS
