

# Mrs. Heflin's 5th Grade News

## We are learning:

**Language Arts:** I am trying something new this year with guided reading groups. Students will be rotating through centers and working with both the teacher, a para, and independently. The month of September we will be focusing on theme, characters, setting, and plot.

**Math:** Math this month is focusing on place value and powers of ten. We will do some review this month and start working with exponents and multi-digit multiplication.

**Science:** We are spending time every week in the STEAM lab while working through life science. We have a new Science curriculum this year, and I am really excited for all of the new experiments and learning that will take place. We also received a Donor's Choose for Scholastic News that we will be using quite frequently in science as well.

**Social Studies:** Geography is our main focus this month. We will also take the time to focus on September 11, 2001, and the effect it had on our country. Students do have a geography test every Friday.

## Important Reminders

Sept. 11-- Late Start  
Sept. 16-- Colten Weil's Birthday  
Sept. 19-- DARE starts. Deputy Lahey will be here weekly to talk about staying drug free.  
Sept. 20-- Grandparents Luncheon  
Sept. 24 & 26-- Parent Teacher Conferences.  
Sept. 26-- Old Iron Days  
Sept. 27-- Bake Sale

## NEWS

- Students will have an AR goal for the nine weeks that will be a part of their reading grade. Please remind them to be reading at home.
- Students are allowed to bring a snack to have at 1:45. Please make sure it is healthy. They may bring snacks to share with the class if they would like.
- We have had a great start to the year! I am so excited to be at Edna and spending my days with your child.
