

Kindergarten News

The Kindergarten class is busy trying to get on schedule with all of our different learning activities. We are off to a good start.

The children are working on being good listeners and following directions to help with our work habits.

In my room we do a lot of fine motor skills (tracing, writing, drawing, coloring, and cutting) to help us in our everyday life.

Our reading skills that we have been doing are nursery rhymes, identifying uppercase and lowercase letters, and singing the alphabet song.

With our handwriting we are learning the basic strokes (lines) to help make our letters and numbers.

During our math time we are doing chapter 1 of our Go Math books. It covers the numbers 0-5 in representing the numbers, counting, and writing them correctly.

Have a great weekend!!!
