

Mrs. Foster's 6th Grade

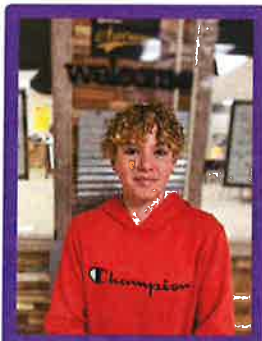

november 2021

Halloween Fun

Student of the Month

Jane Barton

Curriculum

6th Science – We are currently learning about Weather. Our next lesson is about Weather Prediction.

6th Grade Math – Students will begin doing Daily Math this quarter. It will consist of 4-7 questions that they will answer daily and then turn in on Fridays. We will also begin a new chapter on Rates and Ratios.

6th Language Arts – Students are reading the novel, *Number the Stars* and completing review questions after each chapter.

6th Social Studies – We are in our new Textbooks on Topic One. We are learning about the first humans on Earth and how they changed from Hunter & Gatherers to forming small civilizations as they domesticated plants and some animals.

6th Novel – The Egypt Game. We should finish the Egypt Game later this week. Students will take a comprehension AR test and a paper pencil test over the book. Then they will create a summative project, of their choice to wrap this novel up.
