We have been learning a lot about Kansas symbols, including the history of the Jayhawk. The class did great using their first study guide to prepare for a challenging volcano test. I was very proud of how hard many of them worked and the great score they got because of that work.

We got to do some research on famous Americans as we learned about biographies.

In Feb. students are going to be learning about weather. They will learn about the tools, the scientists, and the conditions that create our weather and seasons.
